Key Qualification Information

Qualification number:	603/2384/X
Operational start date:	1 Oct 2017
Guided learning hours (GLH):	18 (minimum)
Total qualification time (TQT):	22
Credit value:	2
Number of units:	2 mandatory units
Assessment methods:	<ul style="list-style-type: none"> Formative assessment conducted by Trainer throughout the course Theory assessment/multiple choice question paper: <ul style="list-style-type: none"> 1 x 15 question paper (minimum score 11) 1 x 25 question paper (minimum score 18) Practical assessment – 6 completed throughout the course

Qualsafe Awards

Not only is Qualsafe Awards (QA) one of the largest Awarding Organisations (AO) in the UK, we are also the biggest AO for First Aid qualifications, making us an extremely trusted and recognisable name that employers look for when selecting a training provider.

We are recognised and regulated by the Office of Qualifications and Examinations Regulation (Ofqual), Qualifications Wales and the Northern Ireland Council for the Curriculum, Examinations and Assessment (CCEA). This means we can offer Centres an extensive range of qualification suites including First Aid; Prehospital Care; Health and Safety; Food Safety; Fire Safety; Education and Training; Manual Handling; and Health and Social Care.

With a specialist team of subject matter experts on hand to support our Centres, including A&E Consultants, doctors, paramedics, nurses, physiotherapists and specialists in the other sectors, you can be confident that you are truly working with the industry experts.

Qualification overview

This qualification forms part of the QA First Aid suite of qualifications. The qualification and learning outcomes are based on the recommendations of:

- Resuscitation Council (UK)
- Assessment Principles for Regulated First Aid Qualifications

This QA qualification is:

- For people who deal with first aid at work enabling them to be workplace first aiders under the Health and Safety (First Aid) Regulations 1981
- Based on the Health and Safety Executive (HSE) training standard for delivery of First Aid at Work (FAW) courses for the purposes of the Health and Safety (First Aid) Regulations 1981

This qualification should enable Learners to attain the knowledge and practical competencies needed to deal with a range of first aid situations.

Learners should be able to demonstrate the practical administration of safe, prompt, effective first aid in emergency situations with an understanding of the role of first aider.

This qualification specification provides information for Centres about the delivery of the QA Level 3 Award in First Aid at Work (RQF) and includes the unit information, assessment methods and quality assurance arrangements.

Objective

The objective of the qualification is to benefit Learners by enabling them to attain the knowledge and practical competencies needed to deal with a range of first aid situations and/or take on the role of first aider in the workplace.

Purpose

The purpose of this qualification is to prepare the Learner to develop the skills and knowledge needed to take on the role of first aider in the workplace.

Intended audience

This qualification is for people who have a specific responsibility at work, or in voluntary and community activities, to provide basic first aid to people in a range of first aid situations.

Structure

This qualification contains 2 mandatory units with a Total Qualification Time (TQT) of 22 hours. Full details of these units are in *Appendix 1*.

Learners must complete all assessments in the unit successfully within the registration period to achieve the qualification. The maximum period to achieve this qualification, including any referrals is 10 weeks.

TQT is the total number of hours required for a Learner to achieve this qualification. It has 2 elements:

- Guided Learning Hours (GLH) is the time a Learner is being taught and assessed under the immediate guidance of a Trainer/Assessor, which for this qualification is 18 GLH (minimum), and
- The number of hours a Learner will reasonably be likely to spend in preparation and study, including assessment, as directed by, but not under the immediate guidance or supervision of a Trainer, e.g. home study, which for this qualification is 4 hours

Other units

See below.

Relationship with other related qualifications

The QA Level 3 Award in First Aid at Work (RQF):

- Contains 1 unit that also appears as Unit 1 (Emergency First Aid in the Workplace) of the QA Level 3 Award in Emergency First Aid at Work (RQF)

Therefore assessments gained through the Emergency First Aid in the Workplace unit may be used as RPL towards achievement of the QA Level 3 Award in First Aid at Work (RQF) qualification providing it is achieved within its registration period.

Recognition of Prior Learning

RPL is a process for recognising learning from previous training, qualifications or experience to avoid duplication of learning. It considers whether a Learner can demonstrate and prove that they meet the assessment requirements for a unit through knowledge, understanding or skills they already possess and do not need to develop through a course of learning.

RPL must be: valid, reliable, authentic, current, sufficient.

It is the Centres responsibility to make sure they do not disadvantage a Learner or compromise the integrity of the qualification when using the RPL process. If sufficient understanding of a subject is in doubt training must take place.

RPL must be current, i.e. within 3 years. RPL should only be used as rationale for a reduction in contact/guided learning hours, the Learner must still undertake assessment of all learning outcomes and criteria of the qualification in order to gain an up-to-date qualification certificate.

Evidence of prior training submitted for RPL consideration must be authenticated by the Centre; a certificate is not valid without referenced learning outcomes or evidence from the original training provider.

Entry requirements

Learners must be at least 14 years old on the first day of the training.

There are no other formal entry requirements but to benefit from the learning we advise that Learners have a minimum of Level 1 in literacy or numeracy or equivalent.

Progression

The QA Level 3 Award in First Aid at Work (RQF) may be used towards other qualifications at the same and higher level, plus aid career progression in a relevant profession.

Requalification requirements

This qualification is valid for a period of 3 years. The Learner needs to retake the qualification before the certificate expiry date to remain qualified.

It is possible to reduce GLH when requalifying and attend a 12 hour FAW requalifying course. In order to attend a 12 hour requalifying course, Learners must produce their current or previous recently expired FAW certificate. The certificate should be in a format as accepted by the HSE. Requalification training should be delivered in no less than 12 hours (2 days) excluding breaks.

Expired FAW certificates

If the Learner's previous FAW certificate will have expired by more than one month at the start of FAW requalification course, the Centre must, in advance, provide the Learner/their Employer with the following information:

FAW requalification courses are only 12 hours in duration, compared to 18 hours for the initial course. This means that the syllabus is covered at a significantly faster pace in the understanding that learners are familiar with the topics.

Health and Safety Executive (HSE) guidance is clear that if an employee's FAW certificate expires, they are "no longer considered competent to act as a first-aider in the workplace". For this reason, you should make every effort to requalify a first aider before the certificate expires.

Employers and Learners should be aware that there is an increased risk of failing to achieve the required standard if previous certification has expired by a considerable period (HSE defines this as in excess of 1 month). If this is the case, HSE recommends "it may be prudent to complete a 3 day course".

Qualification approval requirements

Qualsafe Awards requires the Centre:

- To have appropriate policies, systems and procedures in place
- To appoint suitable individuals from their personnel team to train, assess and quality assure their QA qualifications
- To have suitable and adequate venues, equipment and learning resources

In order to secure and maintain approval from QA, Centres need a minimum staffing requirement for each qualification suite they deliver, which for this qualification is:

One Trainer/Assessor	Responsible for the delivery and assessment of qualifications
One Internal Quality Assurer	Responsible for quality assuring the delivery, assessment and awarding of this qualification

Qualsafe Awards requires the Centre staff to read and understand QA's key policies and procedures, and to abide by their contents.

Trainer

All Trainers should have the skills, knowledge and experience to be able to teach and demonstrate the subject. Each Trainer must be approved by Qualsafe Awards and provide evidence of:

1. A First Aid at Work qualification/medical registration as shown in *Appendix 2*
2. A formal teaching/training qualification as shown in *Appendix 3*

Trainers are expected to keep up to date with the subject area and provide evidence of continuing professional development (CPD).

Assessor

All Assessors should have the skills, knowledge and experience to be able to assess the subject. Each Assessor must be approved by Qualsafe Awards and provide evidence of:

1. A First Aid at Work qualification/medical registration as shown in *Appendix 2*
2. An acceptable assessing qualification as shown in *Appendix 3* **or** attendance at relevant CPD training with an Awarding Organisation (AO)

There is no requirement for a separate Assessor when delivering this qualification. Trainers can perform the role of both Trainer and Assessor providing they meet the requirements for each role.

Assessors are expected to keep up to date with the subject area and provide evidence of CPD.

Internal Quality Assurers

Internal Quality Assurers (IQAs) of this qualification must have knowledge and competency in first aid as well as knowledge and competency in internal quality assurance. Each IQA must be approved by Qualsafe Awards and provide evidence of:

1. A First Aid at Work qualification/medical registration as shown in *Appendix 2*
2. An acceptable internal quality assurance qualification as shown in *Appendix 4* or attendance at relevant CPD training with an Awarding Organisation (AO)

IQAs are expected to keep up to date with the subject area and provide evidence of CPD.

They must also:

- Have knowledge of the requirements of the qualification they are quality assuring at the time the assessment is taking place
- Have knowledge and understanding of the role of IQAs
- Visit and observe assessments
- Carry out other related internal quality assurance

Full details of the Centre's requirements for internal quality assurance are in the *QA Centre Quality Assurance Guidance*.

Note: IQAs cannot quality assure a course for which they were the Trainer and/or Assessor.

Venue and equipment

Quality training involves using premises conducive to learning and it is a Centre's responsibility to make sure all venues used for training and assessment purposes are suitable and adequate – whether these are hired or in-house training rooms. They must also comply with all current legislation.

In addition, it is important to use a wide range of equipment and learning resources to support delivery.

As a minimum, Centres must make sure their venues, equipment and other resources include:

Resource/area:	Requirements:
Resuscitation manikins	Provide a minimum ratio of 1 manikin to every 4 Learners. In addition, for paediatric first aid, provide 1 child manikin to every 4 Learners and 1 baby manikin to every 4 Learners.
Hygiene	Sufficient procedures to maintain hygiene when using resuscitation manikins and other training equipment.
Audio visual (AV) equipment and training aids	Sufficient AV equipment and training aids to facilitate learning using varying teaching methods.
Learning materials	Provide Learners with clear and accurate reference books/handouts covering the topics included in the qualification.
AED trainers	For qualifications including AED training, at least 1 AED trainer to every 4 learners. If fewer AED trainers are provided, adjust learning hours/lesson plans accordingly to make sure Learners are not disadvantaged.
Bandages and dressings	Sufficient clean bandages, dressings and other items commonly found in a first aid kit to facilitate training and assessment.
Training venue	<p>The training venue must meet acceptable health and safety standards and be conducive to learning, with sufficient:</p> <p>Size, floor surfaces, seating, writing surfaces, toilet facilities, ventilation, lighting, heating, access, exits, cleanliness, absence of distracting noise.</p>

Note: The following resources are required for the optional catastrophic bleeding practical assessment:

- A manufactured tourniquet
- Equipment required for the application of an improvised tourniquet
- A replica wound with training equipment for wound packing (ideally)
- Imitation haemostatic dressings or other dressings

Course/Centre administration

Registering Learners

Register Learners with Qualsafe Awards in accordance with the guidance in the *QA Centre Handbook*.

Certification

After a Learner has completed an assessment, unit or qualification, whether they have passed or not, Centres must enter the details and assessment results on the Customer Portal at:

www.qualsafeawards.org

Centres will be given login details and guidance on using the Customer Portal when they are approved to deliver a QA qualification.

The Learner receives 1 certificate on achieving this qualification.

Learners who complete the training and assessment shown below will have additional text included on their certificate that acknowledges these skills for:

- Use of tourniquets and haemostatic dressings

The certificate date is the date the Learner achieves the final unit. This qualification is valid for 3 years.

The Learner needs to re-take the qualification and the assessments before the end of the 3 years to remain qualified. Qualsafe Awards recommend Learners also complete annual refreshers to maintain their basic skills and keep up to date with any changes to first aid procedures.

Recommended annual refresher training/qualifications include:

- QA Level 3 Award in First Aid at Work (Annual Refresher) (RQF)
- QA Level 2 Award in Basic Life Support and Safe Use of an Automated External Defibrillator (RQF)
- QA Level 2 Award in Basic Life Support and Management of Anaphylaxis (RQF)
- QA Level 2 Award in Basic Life Support for Adults and Children (RQF)

Delivery and support

Learner to Trainer ratio

To maintain the quality of training and assessment, make sure the class ratio is no more than 12 Learners to 1 Trainer. The assessment space should allow Learners to sit at least 1 metre apart to prevent collusion during the theory/multiple choice question paper assessment. Never allow more Learners on the course than you can cater for during the assessment.

Delivery plan

Qualsafe Awards provides Centres with a complimentary course programme and detailed lesson plans, which are carefully designed to meet the objective of this qualification and the needs of Learners, making sure Learners are adequately prepared for the assessments.

For Centres wanting to include additional skills, we have created additional lesson plans to include:

- Catastrophic bleeding: use of tourniquets and haemostatic dressings and how to incorporate these into courses

Centres not using QA lesson plans, which are created and provided free, must submit their own delivery plan and have it approved by us **before** delivering this qualification. **Note:** Charges may apply. The delivery plan should:

- Include a course timetable, clearly showing the required subjects and criteria/learning outcomes are covered and the minimum 18 guided learning hours are met

- Be carefully designed to meet the objective of this qualification and the needs of Learners, making sure Learners are adequately prepared for the assessments
- Be emailed to: info@qualsafeawards.org

Learning materials

Centres must provide each Learner with a suitable reference book that covers the lesson plans and learning outcomes for this qualification. We recommend either:

- *First Aid Made Easy* by Nigel Barraclough
- *Concise First Aid Made Easy* by Nigel Barraclough

Centres can choose alternative books or other learning materials but these **must be approved** by Qualsafe Awards prior to use.

Ongoing support

Qualsafe Awards Centres should provide appropriate levels of support to Learners throughout the qualification. The purpose of the support is to:

- Assess knowledge and competence in relation to learning outcomes and the detailed assessment criteria of the units within the qualification, see *Appendix 1*
- Give Learners feedback on their progress and how they might be able to improve

Assessment

Overview

The QA Level 3 Award in First Aid at Work (RQF) skills and knowledge should be taught and assessed in accordance with currently accepted first aid practice in the UK.

Methods

Qualsafe Awards has devised assessment tools to make sure Learners gain the required knowledge, skills and understanding, as detailed in the learning outcomes and assessment criteria shown in the *Appendix 1*. Centres should download all assessment papers from the Customer Portal in advance of the course. For each unit there are:

- Practical assessments – observed by the Trainer throughout the course, with the results of each learning outcome recorded on the practical assessment paperwork, see *QA Guide to Assessing First Aid Qualifications*. There are 6 practical assessments for this qualification:
 - CPR and safe use of an AED
 - Choking casualty
 - Unconscious casualty
 - Wounds, bleeding and shock
 - Secondary survey
 - Management of fractures
 - optional extra – Catastrophic bleeding
- Formative assessments – a range of informal assessment procedures employed by the Trainer/Assessor during the learning process to measure each Learner's knowledge, skills and understanding related to the assessment criteria

- Theory assessment/multiple choice question papers – there is 1 paper per unit for each Learner and Learners should answer all the questions under ‘examination’ conditions, see *QA Multiple Choice Question Paper Guidelines*.
 - The maximum time allowed for Unit 1 is 25 minutes and for Unit 2 is 40 minutes.
 - The minimum mark is 11 out of 15 for Unit 1 and 18 out of 25 for Unit 2 in order to be considered for an overall ‘Pass’.

However, even when a Learner achieves this minimum, Trainers are expected to make a professional judgement as to whether that Learner has achieved all the assessment criteria. Trainers should use all assessment evidence available, including formative and practical assessments, to reach this judgement

Note: Centres should download all assessment papers from the Customer Portal in advance of the course.

Access to assessment

Qualsafe Awards is committed to equality when designing the assessments for this qualification. Centres can make sure they do not unfairly exclude the assessment needs of a particular Learner by following the *QA Access to Assessment Policy* to determine whether it is appropriate to make a:

- Reasonable adjustment or
- Special consideration

When a reasonable adjustment is made or requested, e.g. written or theory assessment delivered verbally, Centres must complete a Reasonable Adjustment Form and send it to QA with any relevant supporting evidence. Centres should retain a copy of this form for their own records.

Learners may be eligible for special consideration if they have been affected by adverse circumstances beyond their control. A Special Consideration Request Form should be completed and sent to QA for consideration with relevant supporting evidence prior to implementation. Centres should retain a copy of this form for their own records.

Note: If you have any suggestions for improvements, please let us know.

Learners should be informed about Centre’s and QA’s appeals procedures and how they can access these.

Specific equality issues relevant to this qualification

It is important no Learner is turned away from a training course due to disabilities or impairments. To assess competence and gain certification however, the Learner will need to demonstrate certain practical skills. For instance, for first aid qualifications the Learner must be assessed performing practical tasks such as CPR, as per *QA Guide to Assessing First Aid Qualifications*. To pass the assessment, the Learner must demonstrate the required practical skills without assistance from a third party.

Informal record of achievement

If a Learner with disabilities cannot perform 1 or more of the practical tasks required, it may be possible for the Centre to provide a letter recording the learning outcomes that the Learner achieved. For example, a Learner may be able to demonstrate chest compression only CPR, instruct a third party how to place a casualty in the recovery position and pass the theoretical assessments. The letter should clearly state that “this record of achievement does **not** constitute a QA Level 3 Award in First Aid at Work (RQF)”.

Quality assurance

Centre internal quality assurance

The Centre is required to sample a reasonable amount of assessments as part of the quality assurance of the qualification. This standardisation of assessment across Learners and Trainers is to make sure there is fairness and consistency in assessment practices. The arrangements for this are detailed in the *QA Centre Quality Assurance Guidance*.

Centres must retain all Learner documents and records for a period of 3 years and make sure these are available for review by Quallsafe Awards or our representatives, e.g. External Quality Assurers (EQAs), on request.

Quallsafe Awards external quality assurance

Quallsafe Awards operates a system of ongoing monitoring, support and feedback for approved Centres across the United Kingdom.

QA employs a risk based model to decide the frequency of EQA visits and each approved Centre will receive at least 1 EQA visit within a 3 year cycle.

Direct Claims Status (DSC) for this qualification is dependent on 3 successful QA desk based audits across 3 courses.

Further details of the Quallsafe Awards' external quality assurance programme are available in the *QA Centre Quality Assurance Guidance*.

Appendix 1 – Qualification unit

Qualification Unit 1

The QA Level 3 Award in First Aid at Work (RQF) has 2 units that Learners are required to complete in order to achieve the qualification.

Title:	Unit 1 Emergency First Aid in the Workplace
GLH:	6
Level:	3
Learning outcomes The Learner will:	Assessment criteria The Learner can:
1. Understand the role and responsibilities of a first aider	1.1 Identify the role and responsibilities of a first aider 1.2 Describe how to minimise the risk of infection to self and others 1.3 Identify the need for establishing consent to provide first aid
2. Be able to assess an incident	2.1 Conduct a scene survey 2.2 Conduct a primary survey of a casualty 2.3 Summon appropriate assistance when necessary
3. Be able to provide first aid to an unresponsive casualty	3.1 Identify when to administer Cardiopulmonary Resuscitation (CPR) 3.2 Demonstrate CPR using a manikin 3.3 Justify when to place a casualty into the recovery position 3.4 Demonstrate how to place a casualty into the recovery position 3.5 Identify how to administer first aid to a casualty who is experiencing a seizure
4. Be able to provide first aid to a casualty who is choking	4.1 Identify when choking is: <ul style="list-style-type: none"> • Mild • Severe 4.2 Demonstrate how to administer first aid to a casualty who is choking
5. Be able to provide first aid to a casualty with external bleeding	5.1 Identify the severity of external bleeding: 5.2 Demonstrate how to control external bleeding
6. Know how to provide first aid to a casualty who is in shock	6.1 Recognise a casualty who is suffering from shock 6.2 Identify how to administer first aid to a casualty who is suffering from shock
7. Know how to provide first aid to a casualty with minor injuries	7.1 Identify how to administer first aid to a casualty with: <ul style="list-style-type: none"> • Small cuts • Grazes • Bruises • Small splinters 7.2 Identify how to administer first aid to a casualty with minor burns and scalds

Continued on following page

Continued from previous page

Additional Information	<p>Role and responsibilities: may include reference to:</p> <ul style="list-style-type: none"> • Preventing cross infection • The need for recording incidents and actions • Safe use of available equipment • Assessing an incident • Summoning assistance • Prioritising treatment • Dealing with post incident stress <p>Others may include:</p> <ul style="list-style-type: none"> • Casualty receiving first aid • Work colleagues • Other people within the workplace environment <p>Consent: Learners should be aware of the need for consent on a continual basis when providing first aid. Implied consent can be assumed when treating an unresponsive casualty.</p> <p>When necessary: Learners should be able to evaluate a situation to determine when to summon further assistance and what type of assistance to request.</p> <p>When to administer Cardiopulmonary Resuscitation (CPR): must include agonal gasps.</p> <p>CPR must include:</p> <ul style="list-style-type: none"> • 'Correct placement of AED pads' and • 'Follows AED instructions' <p>Recovery position: a position that maintains a stable open draining airway.</p> <p>Administer first aid: Provide appropriate help to a casualty, manage the situation and seek appropriate assistance when necessary.</p> <p>Seizure: relates to a generalised seizure.</p> <p><i>First aiders should be suspicious of cardiac arrest in any casualty presenting with seizure.</i></p> <p>Shock: hypovolaemic shock (resulting from blood loss)</p>
Simulation	<p>Simulation is permitted in this unit.</p> <p>The following ACs must be assessed by practical demonstration: 2.1, 2.2, 3.2, 3.4, 4.2, 5.2.</p>

Appendix 1 – Qualification unit

Qualification Unit 2

Title:	Unit 2 Recognition and Management of Illness and Injury in the Workplace
GLH:	12
Level:	3
Learning outcomes The Learner will:	Assessment criteria The Learner can:
1. Be able to conduct a secondary survey	1.1 Identify the information to be collected when gathering a casualty history 1.2 Demonstrate how to conduct a head to toe survey
2. Be able to provide first aid to a casualty with suspected injuries to bones, muscles and joints	2.1 Recognise suspected: <ul style="list-style-type: none"> • Fractures and dislocations • Sprains and strains 2.2 Identify how to administer first aid for: <ul style="list-style-type: none"> • Fractures and dislocations • Sprains and strains 2.3 Demonstrate how to apply: <ul style="list-style-type: none"> • A support sling • An elevated sling
3. Be able to provide first aid to a casualty with suspected head and spinal injuries	3.1 Recognise suspected: <ul style="list-style-type: none"> • Head injury • Spinal injury 3.2 Identify how to administer first aid for suspected head injury 3.3 Demonstrate how to administer first aid for suspected spinal injury
4. Know how to provide first aid to a casualty with suspected chest injuries	4.1 Recognise suspected: <ul style="list-style-type: none"> • Flail chest • Penetrating chest injury 4.2 Identify how to administer first aid for a: <ul style="list-style-type: none"> • Flail chest • Penetrating chest injury
5. Be able to administer first aid to a casualty with burns and scalds	5.1 Recognise the factors that affect the severity of burns and scalds 5.2 Administer first aid for burns involving: <ul style="list-style-type: none"> • Dry heat • Wet heat • Electricity • Chemicals
6. Be able to administer first aid to a casualty with an eye injury	6.1 Identify how to administer first aid for eye injuries involving: <ul style="list-style-type: none"> • Dust • Chemicals • Embedded objects
7. Know how to provide first aid to a casualty with sudden poisoning	7.1 Identify the routes that poisons can take to enter the body 7.2 Administer immediate first aid to a casualty affected by sudden poisoning 7.3 Identify sources of information for treating those affected by sudden poisoning
8. Be able to administer first aid to a casualty with anaphylaxis	8.1 Identify common triggers for anaphylaxis 8.2 Recognise anaphylaxis 8.3 Administer immediate first aid for a casualty suffering from anaphylaxis

Continued on following page

Continued from previous page

9. 9. Know how to provide first aid to a casualty with suspected major illness	9.1 Recognise suspected: <ul style="list-style-type: none"> • Heart attack • Stroke • Epileptic seizure • Asthma attack • Diabetic emergency 9.2 Identify how to administer first aid to a casualty suffering from: <ul style="list-style-type: none"> • Heart attack • Stroke • Epilepsy • Asthma attack • Diabetic emergency
Additional information	<p>Head to toe survey: must be conducted on a casualty with a continually monitored or protected airway (e.g. a conscious casualty or a casualty placed in the recovery position).</p> <p>Recognise: to include signs and/or symptoms of the condition and/or where appropriate mechanism of injury.</p> <p>Administer first aid: Provide appropriate help to a casualty, manage the situation and seek appropriate assistance when necessary.</p> <p>Head injury: includes concussion, compression and skull fracture. The Learner is not expected to differentiate between these conditions.</p> <p>Asthma attack: may include assisting a casualty to use a spacer device and to take their own inhaler.</p> <p>Diabetic emergency: should focus on the condition of hypoglycaemia.</p>
Simulation	<p>Simulation is permitted in this unit.</p> <p>The following ACs must be assessed by practical demonstration: 1.2, 2.3, 3.3.</p>

Continued on following page

Appendix 2 – Occupational knowledge and competence in first aid

All Trainers, Assessors, IQAs and EQAs must have occupational knowledge and competence in first aid.

Acceptable evidence includes:

- Holding a current First Aid at Work certificate issued by an Ofqual/SQA Accreditation/Qualifications Wales/CCEA Regulation recognised Awarding Organisation/Body (or equivalent*) or
- Holding a current Offshore First Aid Certificate issued by a HSE approved training provider or
- Current registration as a Doctor with the General Medical Council (GMC)** or
- Current registration as a Nurse with the Nursing and Midwifery Council (NMC)** or
- Current registration as a Paramedic with the Health and Care Professions Council (HCPC)**

*recognised First Aid at Work certificate equivalents must be submitted to QA with comprehensive mapping which evidences that all assessment criteria of the FAW qualification have been achieved within the past 3 years.

**registered healthcare professionals must act within their scope of practice and therefore have current expertise in first aid to teach/assess the subject.

Appendix 3

Acceptable training/assessing qualifications

This list is not exhaustive but provides a guide to acceptable training and/or assessing qualifications. Trainers who also assess Learners competence must hold an acceptable assessor qualification to enable them to perform both functions.

Qualification	Train	Assess
